Senior Data Analyst | Financial Analyst | Business Intelligence | Automation & Reporting

PROFESSIONAL SUMMARY

Data and Operations Professional with 4 years of experience across banking and insurance, specializing in financial analysis, portfolio reconciliation, business intelligence, and process automation. Currently monitoring a 3 billion SAR banking portfolio across 13 internal accounts, analyzing daily financial movements and reconciling balances. Experienced in regulatory reporting, data quality, and automation initiatives involving 200,000+ customer records. Skilled in transforming complex financial and operational data into actionable insights that improve accuracy, strengthen controls, and enhance operational efficiency.

CORE COMPETENCIES

- Financial & Operational Data Analysis
- Portfolio Analysis & Reconciliation
- Financial Reconciliation & Balance Validation
- Business Intelligence & Reporting
- KPI Reporting & Performance Monitoring
- Process Improvement & Automation
- Data Quality & Data Cleansing
- SAMA Compliance Support

PROFESSIONAL EXPERIENCE

Saudi National Bank (SNB)

Senior Operations Processor | November 2022 – Present

- Monitor and reconcile a SAR 3 billion banking portfolio across 13 internal accounts, analyzing daily inflows, outflows, balances, and discrepancies.
- Analyze Non-Moving Accounts (NMA) movements, validate account entries and exits, and investigate daily reconciliation variances.
- Prepare KPI, operational, and regulatory reports, ensuring data accuracy and supporting SAMA compliance.
- Validate datasets across banking systems and develop Excel-based reporting and automation solutions to improve data integrity and operational efficiency.
- Collaborate with IT and cross-functional teams to implement RPA solutions, validate automated outputs, and improve processing accuracy.

SELECTED ACHIEVEMENTS

Data Integrity: Validated and corrected 200,000+ customer records through ELM, strengthening data quality and regulatory compliance.

Regulatory Project: Contributed to Phase 2 of the Natheer project under SAMA directives, supporting customer-data migration and coordination with relevant stakeholders.

Process Automation: Supported RPA implementation for accounts linked to cancelled Commercial Registrations, reducing processing turnaround time.

Operational Efficiency: Contributed to automating a daily process covering approximately 20 accounts, eliminating around four hours of manual work across two FTEs, with zero processing errors reported.

Bupa Arabia

Enrolment - Operations | August 2022 – November 2022

-Processed and renewed corporate insurance contracts in accordance with Council of Health Insurance (CHI) regulations and internal policies.

-Coordinated with Sales and Operations teams to process client requests while maintaining service quality and data accuracy.

-Processed insurance policy applications and contract updates, ensuring compliance with internal procedures.

-Conducted quality assurance reviews of membership requests to verify data accuracy and adherence to operational standards.
